Office of the President, District Board,

Mysore District,

Dated, Mysore, the 28th July 1928.

Subject.- Increasing the number of Sanitary Inspectors in the Mysore District.

Sir,

I have the honour to state that there were 13 Sanitary Inspectors with one reserve Sanitary Inspector before the abolition of the Taluk Boards from 1st February 27. After the abolition of the Taluk Boards, the maintenance of roads and buillings which belonged to the Taluk boards devolved on the District Board. Laving in view, that a separate District Board Engineering establishment recommended by the Board would be sanctioned by the Government and that the Village Panchayets would come forward and take up the maintenance of Taluk Board Roads, the District Board appointed only three Sanitary Inspectors with the jurisliction over not less than four taluks for each Inspector.

The proposals of the District Board for entertainment of a separate Engineering establishment was not sanctioned by the Government. It is also seen from experience that the majority of Village Panchayets are not able to take up the maintenance of roads and buildings without assistance.

The Malnad Improvement Scheme has been introduced into the Taluks of Hunsur and Heggadadevankote and owing to vast area and other features of these Taluks, it is deemed necessary that each of these Taluks should have a Sanitary Inspector to look after Malnad Improvement works as well as other works of the District Board and Rural Development and sanitation.

The Taluk Board roads have been formed at a large outlay and it is very essential that these roads should be properly maintained and prevented from deterioration. The jurisdiction of the present three sanitary Inspectors being large, they cannot be expected to give as much attention as the work require.

Further, the adoption of preventive and precautionary measures when epidemics prevail and the supervision of conservancy and other arrangements during Jatras - these duties have also devolved on the District Board. - The carrying out of Sanitary provisions is now neglected by Sanitary Inspectors and the District Medical and Sanitary Officer cannot get any help from Sanitary Inspectors as the latter have other works to attend.

In view of the above circumstances, the question of increasing the number of Sanitary Inspectors was placed before the District Board at their meeting held on 7th July 28. It was resolved that "one Sanitary Inspector for two Taluks and one Reserve Sanitary Inspector- Total 3 Sanitary Inspectors are necessary and an allowance of Rs.25 be given to each. Their Head Quarters be settled after the proposal is sanctioned. They must work under the direct orders of the President and the Vice President".

In submitting herewith an extract from the proceedings of the District Board, I request that early sanction of the Government may kindly be obtained for the resolution of the Board. Some of the Taluk Board Sanitary Inspectors who are now Panchayat Inspectors will be selected and reabsorbed. The scale of pay in the new posts will be in accordance with the Government Order No. R 16474-95-Rev.184-16-23 dated 24th June 1919.

I have the honour to be,

Sir,

Your most obedient servant,

President.

District Board of Mysore.
